

OUR STORY

The Western Cape is much more than a collection of beautiful places. Behind every mountain, vineyard, building, town and community is a story waiting to be told.

Cape Vida Tours was created to share those stories through personal, informative and enjoyable guided experiences.

We believe the best way to discover a destination is not simply to see it, but to understand it.

Our tours combine sightseeing with history, culture, local flavours and authentic experiences, giving our guests a deeper connection with the places they visit.

We want you to leave with more than photographs. We want you to leave with memories, stories and a little piece of Cape Life.

Welcome to Cape Vida.
